STRANGE ADVENTURES IN MENTAL TELEPATHY

An unusual story disclosing some remarkable tests by a noted writer who tuned in on a friend's mind 3,000 miles away and once got a mental message that saved his life. Look for this feature in the August 9th issue of

The American Weekly

The big magazine distributed with BALTIMORE SUNDAY AMERICAN

On Sale At All Newsstands

Putting the HEAT on Hitler!

"If the shippers and consumers of this coal want to help win the war, they will ship and stock all the coal possible in the spring and summer months." JOSEPH B. EASTMAN, Director, Office of Defense Transportation.

"A full coal bin is the best possible insurance anybody can have against a wartime coal shortage." H. A. GRAY, Acting Director, Office of Solid Fuels Coordination for war, HAROLD L. ICKES, Coordinator.

America today is pouring out war materials faster than all the Axis powers combined. The months ahead will see production of guns, tanks, planes and ammunition in a rising flood beyond anything ever imagined.

That's putting on the heat — and it takes heat to do it.

It takes millions of tons of coal to keep America's war factories booming. And America is producing it — to the stepped up tune of 11,000,000 tons a week — 24 per cent more than last year. This coal must be moved throughout the vast expanse of the land. It is being moved—swiftly, smoothly and efficiently—by the nation's railroads.

And that's where the Norfolk and Western comes in. From the world famed bituminous fields along its

lines, this railroad is moving about 1,000,000 tons of coal a week: —nearly one tenth of the weekly output of the United States.

The Norfolk and Western Railway and the other railroads of the nation will keep right on doing their part in "putting on the heat" to the best of their ability.

In normal times, one coal car in every four is needed to move fuel for home-heating. And here's where you come in. Place your order for coal now for delivery as soon as practical. That will mean more cars—more power—more heat to keep our steadily increasing war production program going full speed ahead through the winter.

Place your order now—and help put the heat on Hitler!
